

# Your Family & Friends

A healing funeral is 10% about the deceased  
and 90% about their family and friends.

## How we add value

1. Provide meaningful services to each generation of the family from the oldest to the youngest.
2. Establish new traditions that add value to the experience.
3. Provide real comfort inside the funeral home.

## Building a Bridge

At Schwartz-Adamo Funeral Services, we are “Your Servant.” Our goal as “Your Servant” is to change what you think of funeral homes, to placed where life is celebrated and loss is made meaningful.

How is that accomplished? We educate you about the meaning of every service we provide to your family. The result is a personalized service that you designed and that your family and friend will be changes by. We also have learned that meaningful services move the hearts and minds of every generation in the family.

As traditions change, each generation reacts differently to the symbolic meaning of the funeral. With any part of a funeral service, grandma may want, your mother may question, your sister may reject, and your niece may be confused. Our duty to your family is to bridge the divide between each generation and aid the entire family with our experience.

Our special offerings get each generation of your family involved in the planning and participation of the funeral service. In doing so, the life is honored and the family is unified in a meaningful way.

We have provided a complete list of special offerings on the 2nd page. Please contact us if you have any questions.
